TAYLOR'S VALET IS CAUGHT ON TRAIN

But Won't Acknowledge Identity—Says He Knew Slain Man and a Woman Did It

By Associated Press

Topeka, Kans., Feb. 10.—A man held in the Shawnee county jail here, who was taken from a train Wednesday night, answers the description of Edward P. Sands, secretary and valet to William Desmond Taylor, murdered motion picture director, officials today announced.

The man gave the name of Walter S. Underwood. He admitted he knew Taylor but denied he knew anything about the murder. He corresponds to every identification mark, even to scars on the cheek, to the description of Sands.

"It was a woman who did it," Underwood said, when questioned about the murder. "I know nothing about it but it was jealousy that caused it." He said he had been at Taylor's house several times attending parties which he said were wild, and at which both drugs and liquor were served. He said he had seen both Mabel Normand and Mary Miles Minter at Taylor's house but not at the same time.

Underwood maintains he left Los Angeles Wednesday night shortly after Taylor was killed.

CARAWAY SHOWS UP CIVIL SERVICE

By Associated Press

Washington, Feb. 10.—Members of the Civil Service Commission were attacked in the Senate today by Senator Caraway, democrat, of Arkansas, who charged they "are prostituting their office for partisan purposes." He added "they are leading themselves to a positive fraud; their conduct is shocking."

MADISON TO PLAY PARIS HERE SATURDAY

Both Madison High basketball teams are to play Paris High here Saturday at 7:30 p. m. The Paris High has one of the best teams in the district and may make a very good showing in the district tournament.

Madison High won both of their games from Lexington Model High without much difficulty and are in hopes of adding two more victories.

Berbourville Man Killed
In Denver, Colo.

Denver, Colo., Feb. 10.—After reversing his course of travel along the trail of the Aurora trainway line short after noon, J. W. Jordan, 40 years old, a well to do inventor of Barbourville, Ky., walked straight into an oncoming car and was mangled beyond recognition. The authorities are puzzled as to whether Jordan walked in front of the car intentionally or by accident.

Sonic Farm Sales

In Montgomery county, F. D. Richardson, real estate agent, sold for J. W. Napier a small well improved farm of 26 acres, six miles east of Mt. Sterling on the Spencer pike, to R. M. McElroy, of Magoffin county, for \$4,000.

In Shelby county a farm of 79 acres belonging to Phelps and Jackson, 5 miles south of Shelbyville on the Zaring Mill pike, sold to A. E. Heinrich for \$10,000 cash. Riggs Brothers place of 25 acres and improvements on the Bark's Branch pike, 2 miles north of Shelbyville, sold to Grant Tinsley, colored, for \$5,000 cash.

Calf Hops Like Rabbit

A heifer calf recently born at Jefferson, Ga., has only one eye, no tail, and although she boasts four well developed legs and feet, hops like a rabbit instead of walking as calves are generally supposed to walk. Outside of that her owner, George Williamson, says she is a pretty good calf.

HAYNES TELLS WHY COUNTRY ISN'T DRY

By Associated Press

Columbus, O., Feb. 10.—"Apathetic citizens" and "lethargic public officials" are the two outstanding difficulties standing in the way of better enforcement of the prohibition laws, Major Roy Haynes, National Prohibition Commissioner, declared in an address here today at the state dry enforcement convention. Meanwhile, he said, 36 paid organizations are striving day and night to accomplish that impossible task of causing the repeal of the 18th amendment.

FANS EVIDENTLY DO NOT WANT A TEAM

Indications are that Richmond will not have a team in the new Blue Grass League.

Many fans say they'd like to see Richmond represented but so far no one has been found to "go to the front" and take hold of the work of making an organization. A lot of the fans are willing to put up their money but it's a hard matter to find a man who is willing to sacrifice his business and time and go out and make up the money to attend to the thousand and one details of putting a team in the field.

Then there is the question of a suitable playing ground. Several sites have been suggested but there's some hitch connected with one so far thought of.

A lot of money would have to be spent in grading, or building a grand stand, or other necessities to put the grounds in shape to play on.

The meeting called for Thursday night at the Richmond Motor Company was attended by nearly four fans. After canvassing the situation, they decided that unless some one comes forward to take hold of the matter and give some work and time to it there is no use going any further with the matter.

DOBROWSKY SELLS OUT AFTER 25 YEARS

After almost a quarter of a century in Richmond, during which time he has amassed a comfortable competence, A. Dobrowsky has sold his business and will move to Cincinnati to make his home. His family have been there for the past year, while Mr. Dobrowsky waited here until he could find a buyer for his property. The purchaser is Louis Glazier, from Mississippi, and he has taken possession of the store and stock of goods which Mr. Dobrowsky had operated so long on first street. Mr. Glazier comes well recommended and steps into a nice business, and has the good wishes of everyone. The departure of "Dob" to Mr. Dobrowsky is known to his intimate friends removes a landmark from Richmond.

Mr. Dobrowsky and family came to the United States from Russia over 25 years ago. They first settled in Cincinnati and then came to Richmond. No man was ever a more law abiding, upright and reliable business man than this humble Hebrew merchant. He leaves Richmond with the esteem and good wishes of everyone.

WE WANTED A CHANGE

We were getting a dollar six bits for our corn. We could sell every bushel from the hoof to the horn—

We wanted a change and we got it.

Wow we're getting a quarter for corn. It's so cheap that we burn it for fuel, one to two to warm keep. We can't sell the hides, so we bury them deep—

But we wanted a change and we got it.

The poor working man pulled down eight bushels a day. Now he's darn glad to work for half of that pay—

But he wanted a change and he got it.

There was war and plenty for every man's son. And warm food and shelter when the work was done: Now millions are idle, heretofore there was none—

But we wanted a change and we got it.

Mr. Wilson spent quite a long time "over there." For peace he was fighting, but what did we care—

We wanted a change and we got it.

Now all that we read is golf and vacations. Day week-ends at summer resorts and plantations. Not what we expect from the head of a nation—

But we wanted a change and we got it.

We were prosperous and happy, well fed and gay. Now millions of children go hungry each day—

We wanted a change and we got it.

ALL VOTERS IN STATE HOUSE FINDS TAXES MAY HAVE TO REGISTER TO PAY FOR BONUS

Frankfort, Feb. 10—Democrats and Republicans in the Senate and Representatives in a caucus held at the Capitol Friday night went on record as favoring the passage of a general registration law requiring every voter in the state to register once for a lifetime.

The bill is to be taken up in the House next Wednesday afternoon and rushed to passage if it was decided.

The law, to be sponsored as a party measure, is slightly different from that incorporated in a bill introduced by Representative C. D. Minor, of Boyle county, and is to be brought forward as a substitute to Mr. Minor's bill by Representative Ira D. Smith, of Christian county.

Mr. Minor and Mr. Smith explained the provisions of the bill at the caucus last night. It provides that each voter shall register next July when two day shall be set aside for that purpose.

Four registration officers to be selected in the same manner as are election officers are to keep open the polls of each precinct for the registration.

The voters are to receive certificates which they will have to present at the polls when they wish to vote.

Sixty days before election another registration day is to be observed when those who failed to register will be given an opportunity.

This first registration is to be good for life if the voter does not move, in which case he can change his certificate to another precinct by applying to the County Clerk.

Registration will be observed annually in July, when those who have become of age during the year, or have moved from other parts of the country, will be given a chance to register.

Registration in the future is to be limited to one day, under the provisions of the bill.

Letter Stated His Body Would Be Found In River

Crab Orchard, Ky., Feb. 10.—A letter mailed on the train, purporting to have been signed by Ed Lane, stated that his body would be found in Dix river below Lancaster bridge at a spot which his clothes would mark. Chief of Police Thompson and others hurried to the location, but failed to find the clothes or other evidence of suicide. Lane came here from Garrard county recently. It is said that his wife and six children are almost destitute.

TO ELECT COUNTY SCHOOL HEADS AGAIN

If Senate Concurs In Bill Passed By House Thursday—Doings In Legislature

Frankfort, Feb. 10—The Kentucky House of Representatives Thursday afternoon by a vote of 70 to 19 passed a bill to provide for the election of County Superintendents of Schools by the voters. An amendment to the bill permits those now holding office to continue until 1925, when the first election is to be held.

By a vote of 68 to 17 the House passed Representative Harry Myers' bill to prohibit the use of "daylight saving" at other than the standard central time except on proclamation of the Governor. Mr. Myers made a short talk in which he pointed out the inconveniences that resulted when some cities have daylight saving time and other do not.

Representative W. A. Adams, who like Mr. Myers, lives in Covington, opposed the bill on the ground that daylight time is a nominal tax Covington to Newport to adopt it. He was opposed to daylight saving time, he said, but thought the state would be in the same position under Mr. Myers' bill as other cities are now.

The House also made Speaker James H. Thompson's taxation bill a special order for 11 o'clock Friday morning. Representative H. R. Lawrence, Trigg county, made the motion, saying the there are certain matters of importance which must be made special orders so that they can be taken up with the proper care.

The declaratory judgment bill was made a special order for 11 o'clock next Wednesday.

A bill to permit boards of education of second class cities to borrow money on the anticipation of its revenue was passed by a vote of 76 to 10.

A bill advancing the pension of Confederate veterans and their widows from \$12 to \$15 a month was passed by a vote of 67 to 1. The measure was introduced by Representative Brodie Payne, who also gives pensions to those who were required to take the last oath of allegiance in the last year of the war.

The House adjourned at 1 o'clock.

Senator H. V. Bell's bill to strengthen the compulsory education law of 1920 was brought out as a special order when the Senate reconvened at 2 o'clock after a recess for lunch. The bill was passed by a vote of 30 to 0.

Senator George Baker explained his bill to promote and to extend the provisions of the vocational rehabilitation law. The bill would provide for the training of persons who have physical handicaps. He explained that no direct appropriation is provided, but that the necessary funds would be procured from compensation insurance. The bill was passed by a vote of 26 to 0.

Senator Newton Bright of Franklin introduced a concurrent resolution that the General Assembly ask Congress to grant farmers, planters, manufacturers, and others who lost money in 1920, as well as those who lost money in 1921, income relief tax.

The resolution was adopted. The Senate adjourned at 2:15 o'clock.

Drink Milk

Prof. E. N. McCollum, of Johns Hopkins University, says that if Americans would eat, drink a quart of milk a day, and eat proportionately less meat, they would live to a ripe old age and be healthier and have better eyesight right along.

He has proved it by rats which for dietary purposes are said to be much like human beings. For 15 years Prof. McCollum has been experimenting with his little pets, feeding them variously, after the manner of human beings, as far as the fifth generation. When a rat is not fed properly, it suffers from rickets just like a child, with Dr. Noah Webster ruled that the rickets and other similar symptoms should come before the "P" or tons. When a girl gets proper nutrition she will be among the amount of better fats and other problems students of the College requirements for an ample and of Arts and Sciences, University balanced ration of calories. So to do children, and of the professor, so far as an old-fashioned spelling insists will run and woman if bee to be held Thursday, Feb. 6, they will pay as much attention to their diet as intelligent people have been selected from each class and now pay to the feeding of children school days, long laid away by.

So what the country needs is collegians, has been dined off not more beefsteaks, but more and is being reviewed by the con- milch cows, not more herbs and testaments in preparation for the more dairies. And with them, event, or as a condition precedent to the purpose of the match, it them it needs a public more appreciative of the virtue of milk. The ordinary adult, male or female, lessons learned in the "red school house" days after strug- gling with Latin, philosophy and of good milk or of its cheapness higher mathematics.

HERE'S ANOTHER
HEN HONOR ROLL

(By Associated Press)

Lexington, Ky., Feb. 10—Kentucky hens now have ample grounds on which to question the right of hogs to the title of "mortgage lifters" of the farm, according to the results obtained during the past year by poultrymen who cooperated with the extension division of the College of Agriculture in conducting demonstrations and keeping record of their flocks.

Practically all of the 47 demonstrators turned in records for the year's work which show that the poultry flock is a paying institution on the farm, according to J. H. Martin, in charge of the College poultry work.

The highest labor income from a flock was obtained by J. T. Wilson, Corydon, each of the 133 White Wyandottes in his flock having produced a profit of \$7.42 during the year. The hens averaged 178 eggs each during that time making the total labor income from the flock \$85.18.

The highest labor income from a flock was reported by A. J. Clegg, Clegg, Ky., who realized \$295.00 from his flock of 143 White Plymouth Rocks during the year. He obtained an average of 142 eggs a hen and received a labor income of \$8.24 from each of them.

E. D. Stapleford, Buckner, obtained the second highest labor income from a hen, each of the 31 White Plymouth Rocks in his flock having returned an average profit of \$5.35 during the year. His labor income from the flock was \$163.89.

Mrs. W. O. Kirk, Philippi, reported the highest average egg production for the year, which was 182 eggs for each of the 18 hens in her flock of Barred Plymouth Rocks. In his flock, realized a labor income of \$185.25 from each of the hens. The labor from her flock was \$96.61.

H. M. Luttrell, Paducah, reported a labor income of \$1,500.01 from his flock of 411 Brown Leghorns which averaged 136 eggs during the year while Joseph Anderson, Covington, obtained a flock labor income of \$1,194.2 from his 415 White Leghorns that averaged 146 eggs each during the year.

The labor income from each bird in the various flocks was not a matter of breed or size of flock but was closely related to the average production of the entire flock, according to Mr. Martin.

The labor income in each of the cases was determined by adding total receipts and increase in stock for the year and subtracting expenditures, exclusive of equipment such as money for feed, coal and oil for incubators, miscellaneous expenses, six per cent interest on investment and five per cent interest on investment and five per cent depreciation on equipment.

4,000,000 Mexicans in U. S.

(By Associated Press)

Mexico City, Feb. 10—The population of Mexico is a trifle more than 14,000,000, according to figures recently compiled. This represents a loss of approximately 1,000,000 since the last census was taken in 1910. The decrease is ascribed to emigration of natives and foreigners during the periods of revolution. Officials here assert that there are now more than 4,000,000 Mexicans living in the United States.

LEARNS SECRET
OF ARROW HEADS

Illinois Man Gets Credit as Only Man Who Knows How to Make Them.

INDIAN CHIEFS LOSE TRICK

Many of Them Confess Their Ignorance of Just How to Make Arrow Heads—Are Identified by Tribal Marks.

Springfield, Ill.—Making of Indian arrow heads has been reduced to its old primitive form by Herbert Weller, a custodian of the Lincoln museum, who has claimed the distinction that it is still used now less frequently, of using the only white man to make them arrow heads.

Butches are among the foremost in using Mr. Weller's method of making arrow heads, as the most primitive of all arrow heads, and they have been identified as the work of a particular tribe. Years of study have made Indians confess their ignorance of the secret of making arrow heads, and they have been identified as the work of real Indians. They are no longer making arrows of bone, but to prevent fraud, uses only glass.

Indians have been known to use bone for the work of real Indians.

Mr. Weller has been studying the secret of arrow heads for 10 years, and he has found that there had been seven Indian tribes.

In his study he has found that arrow heads are made in five shapes, and that in the 20 or 30 cent years very few Indians had any knowledge of the secret.

They are made of two bone and then a sharp, sharp-pointed, sharp edge, and a sharp point.

HERMAN KURTZITSCH

"When it comes to eating, working and sleeping, I'm like a different man from what I was a short time ago," said Herman Kurtzitsch, 40½, Norris Place, Milwaukie, with the Northwestern Life Insurance Co., in relating his experience with Tanaka.

"My whole system was about to give way as a result of two years' constant suffering from stomach trouble and I was so run down and worn out I was hardly able to work. I actually dreaded to eat, as after every meal I suffered terribly from heartburn and I was so nervous I got little rest at night.

"If it hadn't been for Tanaka I'm firmly convinced I would have had to resign my place. It came to my aid in the nick of time and I am strong for it. Tanaka was worth at least fifty miles what it cost me."

Tanaka is sold in Richmond by Stockton and Son and leading druggists.

It's what you get For what you pay

The Richmond Welch Store does not want the whole trade of this or any other community—it wants only that trade to which it can promise and give the largest value for the dollar.

It is not large profits that concern us, but the establishment of a safe and sound foundation for a business that will be lasting.

For this reason our profits must be small so as to afford you the utmost for what you pay.

Consequently, it is only natural that we should have a host of loyal, appreciative customers and that the name of WELCH is a household word for fair and square treatment.

GEORGE ELIOT wrote "As our thought follows close in the slow wake of the dawn, we are impressed with the unusual sameness of the human lot which never alters in the main headings of its history—labor and hunger, seed time and harvest, love and death."

It is entirely fitting that a profession should have developed to care for every detail that perplexes and distresses the family when the end comes to one of its members.

There is a funeral director in your community who merits your confidence and who has dedicated his life to a sympathetic and efficient service to his fellow beings. He realizes fully the desire of people in time of sorrow to be relieved of all necessary details, and their further desire for a character and quality of service that will leave the family with the assurance that everything humanly possible was done for the departed.

Mrs. R. R. Burnam, Sr., was host at the meeting of the Cecilian Club on Wednesday afternoon and also director of the program. The company, the musical talent and the new Steinway grand piano all combined in the creation of a musical atmosphere felt by everyone present. It was one of the greatest meetings of the year and recalled many such in this home. The subject of the afternoon was "The Opera," and the surprise number of the program was "An Appreciation of Mary Garden," given by Mrs. James Burnam, a guest of the club, and was most timely with Miss Garden before the public so much at present. Mrs. Burnam in her enthusiastic and graphic description evinced great love and understanding of dramatic art and a clear recognition of the truth in Opera. Another treat afforded those present was the piano number contributed by Miss Lucia Bennett, a member of the Clef Club. Miss Bennett

82 YEARS OLD AND AS GOOD AS A YOUNGSTER

MEXICAN WETS NOW FEAR DRY WAVE

Seven or eight years ago I was a very sick man. Doctors said either of the stomach and bowels was affecting the liver and heart. For more than a year I wanted to die but could not. Upon the advice of a friend I tried May's Wonderful Remedy, and although 20 years old I now feel as good as a youngster. It is a simple, business preparation that removes the catarrhal mucus from the bowel tract and allays the irritation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or remedied. H. L. Petty & Son, druggists everywhere.

Mother and Child Are Attacked by Hawk

Bethel, Ind.—The largest chicken hawk seen in this section was killed on Monday. Driven by hunger into the house, it sighted in the yard of Mrs. Orlie a large fat hen, and had fastened its talons in the prospective meal. Mrs. Orlie ran to the rescue with a broom. She was followed by her 10-year-old son. The boy turned upon the mother and child. Their cries were heard by an out-of-town salesman, who, being told by Mrs. Orlie where the gun was, presented it and killed the bird. It was half devoured, but measured four and one-half feet from tip to tip of wings.

Nat. in which planter was heard several days ago when the newspaper said that President Obregon contemplated issuing a decree forbidding the planting and cultivation of the maguey plant which is the basic ingredient of the most popular native drink. The maguey, which is a species of cactus, must be replanted every seven years and a decree prohibiting its cultivation would mean its extermination and with it the elimination of tequila, mescal and pulque, drinks of unquestioned potency.

Planters of maguey rushed

JUDGE KENNEDY ON ENFORCEMENT OF LAW

By Associated Press
Somerset, Ky., Feb. 10.—What Kentucky needs is strict law enforcement, declared Judge H. C. Kennedy, of the 28th Judicial District, here today in answering a question as to what was needed to stop crimes of violence and prohibition law violators in Kentucky.

"The good people are yet in majority," said the Judge, "and they are going to rule. We are not yet ready to turn Kentucky or any part of it, over to the lawless element. Cooperation between the law respecting people and the public officials will bring order out of chaos," he added.

Judge Kennedy said: "There exists not only in Kentucky, but everywhere an unusual amount of crime. This condition is probably an aftermath of the World War. Human life was never so cheap; instances of burglary and robbery are numerous, and the prohibitory laws are flagrantly violated. An oath in court was never regarded so lightly.

"But we are not ready to repeal the laws against murder, burglary, larceny, perjury or the illegal making or sale of intoxicating liquors merely because some men continue to violate them. What we need is strict law enforcement. The good people are yet in the majority, and they are going to rule. We are not yet ready to turn Kentucky or any part of it over to the lawless element. The first thing needed is an awakening among the people who have respect to the law and desire its enforcement. And this is already taking place. Many of the present Circuit Judges and Commonwealth's Attorneys in Kentucky believe they stood for law enforcement. Cooperation between the law respecting people and public officials will bring order out of chaos."

Miss Pattie Wells visited friends at Paint Lick Sunday night.

Young Men Getting Away From Intoxicants

By Associated Press

Lexington, Feb. 10.—Today's inhabitants are mostly men of older years. The percentage of young men falling sharply from what it used to be, according to Judge E. Kent Greene, president of the Washingtonian Home Association, the oldest operating organization in the United States for the reclamation of drink addicts.

CANT DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them—ask your neighbors!

Mrs. Lucy Horn, B. and Prather, streets, Richmond, says: "I had a good deal of pain in my side and across the small of my back. My back was lame when I got up in the morning and I was so lame through my hips I couldn't do a thing about the house. When I stooped over my back hurt and I would get dizzy and fiery spells came before my eyes. I had heard so much about Doan's Kidney Pills that I got some at the Richmond Drug Co. In a few days the trouble left me. I think Doan's have cured me for I don't have these spells any more."

Price 60¢ all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Horn had. Foster-Millburn Co., Migrs., Buffalo, N. Y.
